Born in Bavaria, Naturalized in Republic.

Dr. Karl Muck, director of the Boston Symphony Orchestra, is a citizen of Switzerland, not a German subject, was the statement made at the Swiss Legation yesterday in response to an inquiry.

In other informed circles it was said that Dr. Muck was born in Wurzburg, Bavaria, where his father was a magistrate. In 1867, according to this informant when Dr. Muck was 8-years-old, his father took out his naturalization papers in Switzerland. and the status of the son followed that of the father. Later, when the son had become a man, he of his own motion, it was explained, also took out his papers, strengthening his Swish citizenship.

Only the confirmation of the fact of the Swiss citizenship of Dr. Muck could be obtained at the Swiss Legation and beyond that no discussion of the matter was to be had. It was learned, however, that about two years ago, since the war began, Dr. Muck obtained passports at the Swiss Legation here for the purpose of foreign travel, but no particulars could be had as to whether he used the passports or where he went abroad. It is known that he was for a time director of the National Orchestra at Zurich, and that he has lived there at various intervals.

Gifts to Be Handled.

Throughout the camps there will be Christmas services and holiday exercises. Regular systems will be arranged for distribution of gifts and the acceptance of such things as public-spirited persons may send for the boys." Every man will partake in some measure of the Christmas bounty that is abroad. There will be Christmas trees, and Santa Claus will be exceedingly active.

Some objection has been raised by railroads to widespread traveling by the soldiers. Request has been made that refusals be made wherever possible to avoid congestion on passenger tarins and consequent drain on freight traffic.

It is contended that the Thanksgiving rush put the railroads tendays behind in their freight shipments. They say that the Christmas travel, if not curtailed, will, with the usual handicap of cold weather, mean great additional delays to the movement of supplies and munitions. It is believed, however, that the War Department will not attempt to curtail travel.

To Save You From Operation The Cluthe has such a remarkably scrength-ming and beneficial effect that it has com-pletely cured hundreds and hundreds of people whose cases seemed almost hopeless.

It has so theroughly proved its morits that many physiciaus in all parts of the country now recommend it instead of advising operation.

There are so many wrong ideas about response to their sale.

There's only one reason in the world why you or any one cless ever gree saddied up with good-for-nothing makeshifts—

It's simply because you trust to a mers try-on or hasty examination instead of first making a thorough test.

A truss or so-called "appliance" may seem all right when you first try it on and afterward prove utterly worthless.

The only way you can erer make sure of exactly what you are getting is by SIXTY DAYS TRIAL—a thorough day-after-day test.

And there's only one thing of any kind whatever for rupture that you can GET on such a long trial—

Only one thing GOOD ENOUGH to STAND such a long and thorough test—

That's our GUARANTEED rupture holder.

Only Thing Good Enough
